LETTER FROM THE CHAIR

Your Trust in FY 2014

The Local Government Insurance Trust (“the Trust”) is an insurance pool created in 1987 in response to the lack of available, affordable, insurance for Maryland’s local governments. Because the Trust is local to Maryland, and is owned and operated by Maryland’s local governments, its primary purpose is to resolve the risk management needs of its members. Unlike a typical “insurance company,” the Trust is a nonprofit organization, governed by its members through an elected Board of Trustees. Members can directly access the Board of Trustees, the Chairman of the Board and the Executive Director concerning their risk management and insurance issues.

In Fiscal year 2014 the Trust retained all its member municipalities and counties from the previous year and welcomed 4 new members. In fiscal year 2014, Trust membership includes 17 counties, 140 municipalities, 19 sponsored entities, the Maryland Municipal League (MML), the Maryland Association of Counties (MACo) and the Local Government Insurance Trust.

Training continues to be a primary focus of our risk management efforts, because the better trained employees are, the fewer losses they will incur. In fiscal year 2014, the Trust provided 68 training and educational opportunities across the state, which were attended by 1,918 local government officials and employees.

In 2014, the Trust also continued its outreach to organizations and groups representing and/or affiliated with the Trust members. These groups included the Maryland Sheriff’s Association, the Maryland Police and Correctional Training Commission, the Maryland GFOA, the Chesapeake Employers Insurance Company, the Public Risk Insurance Management Association, the National League of Cities Risk Information Sharing Consortium, the National Association of Counties and of course, MACo and MML. The Trust continued its sponsorship with MACo, MML, and the Institute for Governmental Services at the University of Maryland, to conduct the Academy for Excellence in Local Governance.

From a financial standpoint, during fiscal year 2014, \$2,979,000 was returned to LGIT members in the form of premium credits and member equity still grew by approximately \$2,741,000. The premium credits were granted as follows: \$2,256,000 was returned to the members of the Primary Liability Pool (PLP), \$370,000 to the members of the Property Pool and \$353,000 to members of the Excess Pool. We also anticipate returning an additional \$3,000,000 of credits in the coming fiscal year 2015. Overall, the Trust continues to maintain a very healthy reserve and is in excellent financial condition with over \$48,000,000 of net assets. Information regarding the rate stabilization credit program can be found in Note 7 of the Notes to the Financial Statements contained in this Comprehensive Annual Financial Report (CAFR).

Also included in the CAFR are the Transmittal letter and Management’s Discussion and Analysis, which provide detail regarding the financial operations of the Trust. Additionally, the basic financial statements include the Notes to the financial statements, which are an integral part of the annual report. The annual audit went very well largely due to the quality and the stability of the staff in our Finance Department and the work of our Finance/Audit Committee.

My sincere appreciation is extended to all members for their support, input and ideas, that have made the Trust what it is today. I also express my gratitude to my dedicated fellow Board members and the many local government officials who serve on the Trust’s committees. These volunteers are to be commended for their extra effort in making this year a great one.

Finally, I would like to take this opportunity to thank the highly experienced staff for its hard work throughout the year. Their commitment and dedication to Maryland’s local governments are what sets us apart from the competition.

Respectfully submitted,

A handwritten signature in black ink that reads "John E. Bloxom".

John E. Bloxom, Chair
County Attorney, Worcester County

Board of Trustees
Local Government Insurance Trust
7225 Parkway Drive
Hanover, Maryland 21076

Ladies and Gentlemen:

The Comprehensive Annual Financial Report of the Local Government Insurance Trust (Trust) for the year ended June 30, 2014 is hereby respectfully submitted. The Trust's finance department prepared this report. Responsibility for both the accuracy of the presented data and the completeness and fairness of the presentation, including all disclosures, rests with the Trust. We believe the data, as presented, is accurate in all material respects; presented in a manner designed to fairly present the financial position, results of operations and cash flows of the Trust. It also provides all disclosures necessary to enable the reader to gain the maximum understanding of the Trust's financial affairs.

The Comprehensive Annual Financial Report (CAFR) is presented in three sections: introductory, financial and statistical. The introductory section contains this transmittal letter, which includes a discussion of the financial activities and substantive highlights for the fiscal year, a list of the Trust's members, a list of the Trust's officers, the Trust's organizational chart and a copy of the fiscal year 2013 Certificate of Achievement for Excellence in Financial Reporting awarded by the Government Finance Officers Association. The financial section includes the independent auditors' report, management's discussion and analysis, the audited basic financial statements, required supplementary information, and supplementary combining schedules. The statistical section includes selected financial and statistical data, generally presented on a multi-year basis.

The Reporting Entity and Its Services

The Trust is a joint association of Maryland local governments formed July 1, 1987 to provide insurance coverage and other risk management services. Specifically, the Trust provides insurance coverage for certain classes of casualty and property related risks, as well as support services such as litigation, administration and management of claims, risk management and loss control services, training and property valuations. As of June 30, 2014, the Trust operates three pools of coverage: the Primary Liability Pool (PLP), the Property Pool, and the Excess Liability Pool (ELP). The Trust also sponsors Environmental Impairment Liability and Bond Programs. Outside insurance carriers hold the financial risk of both programs and its participants deal directly with them. The Trust also serves as the administrator and treasurer for the Maryland Local Government Health Cooperative (Cooperative) which is a self-insurance alliance among member governments. The Cooperative is a separate entity from the Trust and the Trust holds no financial risk associated with the role of treasurer and administrator. Membership in the Trust is limited to Maryland local governments that are members of either the Maryland Association of Counties (MACo) or the Maryland Municipal League (MML).

A Board of Trustees (Board) consisting of 12 voting members governs the Trust. The Board is comprised of five municipal and five county officials all elected by the membership. Additionally, both executive directors of MACo and MML serve as ex-officio Trustees. The Board elects a Chairman, Vice-Chairman and a Secretary from its members and Elected Trustees are eligible for reelection every three years. The day-to-day operations of the Trust are overseen by the Executive Director, who is the chief administrative officer and is responsible for the administrative implementation of policies stated in the Trust Agreement and By-Laws, as well as the policy manual and as established by the Board.

Economic Outlook

In fiscal year 2014, Trust membership continues to grow with the addition of four new members and 100% retention of counties and municipalities from fiscal year 2013. In fiscal year 2014, the Trust welcomed back Wicomico County and three towns from 3 different counties across the state; the Town of Perryville, the Town of Ridgely and the Town of Somerset. Services provided by the Trust, such as specialized underwriting, claims handling, in-house legal, loss control, training seminars, training grants, employment law hotline and other value added services, not typically provided by commercial insurance companies, secures member loyalty.

The current economic indicators point to a stable liability insurance market for the remainder of calendar year 2014 and for the entire fiscal year 2015. Excess reinsurance costs increased approximately 2% for fiscal year 2015. The fiscal year 2014 surplus for the Excess pool is large enough to support the first layer of \$1,000,000 in coverage at no charge to members in fiscal year 2015.

For the Property pool, reinsurance prices decreased approximately 3% for the upcoming fiscal year 2015 compared to fiscal year 2014. The economic indicators point toward continual stable pricing for the future, except for catastrophe coverage such as flood, earthquake and wind risks.

MAJOR INITIATIVES

For the Year

The following highlights some of the Trust's major accomplishments during fiscal year 2014:

- **INFORMATION TECHNOLOGY** – In fiscal year 2014, LGIT finished the implementation of the Risk360 system. Risk360 is a modular, integrated system designed to perform and manage the core processes of public entity risk pools. The fully integrated system allows for more efficient communication between all three operational functions of underwriting, claims, and finance. In addition, Risk360 provides our membership with on-line browser-based services such as policy renewal, renewal and mid-term schedule changes, incident reporting, and account statement activity.

- **TRAINING** – Training continues to be a primary focus of our risk management efforts to help Trust members reduce losses. In fiscal year 2014, the Trust provided 68 training and educational opportunities across the state attended by 1,918 local government officials and employees. The Trust provided a series of training programs, for both public official & employment liability. The most requested types of training include Certified Flagger training for public works employees, supervisory training and defensive driving. The Legal Department staff continued to present the important Workplace Harassment seminar throughout the State. This program includes a segment on "Bullying in the Workplace" and it has been well received by members throughout the state.

- **LOSS CONTROL CREDIT SURVEY** – In fiscal year 2011, the Board of Trustees, as part of a larger plan to return surplus from the PLP, elected to implement a loss control credit program. The intent was to reward those members who have engaged in exceptional loss control activities. Funding of \$250,000 was allocated to this effort in fiscal year 2014. Members completed an online survey broken down into sets of questions appropriate to the individual lines of coverage offered by the pool. Depending upon their loss control score, qualifying members receive a credit of approximately 5% of premium.

- **RATE STABILIZATION CREDITS** – In fiscal year 2014, for the sixth year in a row, the Board of Trustees implemented a return of equity in the form of rate stabilization credits for the eligible members of the PLP. The equity return follows the policies concerning equity as stated in Article VIII, Section 8.03(b) of the Trust Agreement. Each member's share of the equity return was deposited into their respective rate stabilization accounts. Funds in the account are used by each member, at their discretion, as a credit or offset to their annual PLP premiums. The Board has limited the annual credit to 50% of the account balance. The remainder will be left in the account and can be available in subsequent years. The funds in the rate stabilization accounts can only be used by individual members as an offset against PLP premiums which will require a renewal of membership.
- **PROPERTY APPRAISAL PROGRAM** – A special property appraisal program was initiated in March of 2008 and continued throughout fiscal year 2014.
- **LAW ENFORCEMENT LOSS REDUCTION GRANTS** – The Board of Trustees approved an increase of \$25,000 for Risk Management grants bringing the total of funds available for member requests to \$100,000. LGIT is encouraging our law enforcement agencies to take advantage of new training and services being made available to them to help improve the status of their general orders and other policies and procedures and staff training.
- **LAW ENFORCEMENT BODY CAMERA GRANT PROGRAM** – The Board of Trustees approved a special equipment grant with total available funding of \$25,000 in the form of a 50 % matching grant for member law enforcement agencies pursuing purchasing body cameras for their personnel.
- **DEER AVOIDANCE DEVICE GRANT PROGRAM** – The Board of Trustees approved a special equipment grant with total available funding of \$25,000 in the form of a 50 % matching grant for equipping member vehicles with electronic deer avoidance devices in an effort to reduce the number of deer related member auto collisions.
- **MEMBER SERVICES OUTREACH** – The majority of Trust member staff received training from Member Services on the use of Risk 360. The main focus of the training was for members to complete their FY15 policy renewals through the member portal. Members also received training on reporting incidents, uploading and storing documents, and accessing their financial statement of account.
- **LEGAL SERVICES** – The legal staff carries an average of 30-35 open assignments per month, approximately two-thirds of which are pending lawsuits with the remainder being administrative charges of employment discrimination. Over the past year, legal staff achieved successful outcomes for LGIT members in numerous lawsuits and multiple charges of employment discrimination. Staff also authored several Claims Briefs and Risk Management Bulletins, and continued to regularly publish the Roll Call Reporter and Commander's Log.
- **HEALTH COOPERATIVE** – The Health Cooperative, consisting of 17 LGIT members, completed its 5th year as of June 30, 2014. In February, the Coop returned \$451,970 in surplus funds to its members with good claim experience in plan year 2013. The surplus numbers for plan year 2014 should be finalized by the end of calendar year 2014.

For the Future

During Fiscal Year 2014, the Board of Trustees approved several Risk360 system capital budget enhancements to be completed in Fiscal Year 2015. These solutions when completed, will increase work processing efficiency for LGIT underwriting, loss control, and claims staff, and enable member portal users to do mid-term vehicle classification changes by service request.

A cyber insurance program recently approved by the Board was offered in the fiscal year 2015 member policy renewal package. We offer this coverage free of charge as an added value program and look to continue doing so into the future.

The Legal staff in fiscal year 2015 will continue to publish its law enforcement targeted publication, the Roll Call Reporter, and its companion, corrections targeted publication, the Commander's Log. Both publications will continue to be supplemented by bulletins in the event of major changes in the law.

The Loss Control and Underwriting Department is researching the possibility of providing a Network Cyber Security & Privacy insurance program through an insurance broker/managing general agent.

FINANCIAL MANAGEMENT AND CONTROLS

The basic financial statements have been presented in conformity with accounting principles generally accepted in the United States of America (GAAP) applicable to governmental entities, and necessarily include amounts based upon reliable estimates and judgments. The Trust's accounting records are maintained using an economic resources measurement focus and the accrual basis of accounting. A summary of the Trust's significant accounting policies is discussed in more detail in Management's Discussion and Analysis and also in the Notes to the Financial Statements found in the financial section of this report.

Internal Accounting Structure

Internal controls have been put in place to provide reasonable assurance that assets are safeguarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit preparation of financial statements in accordance with GAAP. The concept of reasonable assurance recognizes that the cost of a control should not exceed the benefits derived from the control, and that the evaluation of costs and benefits requires reasonable business judgment by management. All internal control decisions are made within the above framework. Management believes the Trust's internal accounting controls adequately safeguard assets and provide reasonable assurance of proper recording of financial transactions.

Budgetary Control

A detailed annual budget is prepared prior to the start of each fiscal year and submitted to the Board for review and approval. Trust management is required by the Board to control expenditures and stay within its guidelines. The approved budget is also used as a management tool to aid in the evaluation of performance. Detailed reports comparing budget to actual are provided to the Board on a quarterly basis. The Trust's independent auditors do not audit these internal management reports.

Cash Management

The Department of Finance is responsible for daily cash management and monitoring the activities of the external investment managers. The Trust receives daily pricing of investment securities owned, a monthly reporting of all transactions and cash flows as well as quarterly performance reports. All securities are held in safekeeping with a third party custodian bank as designated by the Board.

Risk Management

The Trust continually seeks ways to manage the risks of each pool of coverage it offers. The Trust provides a number of programs to assist its members in controlling losses and managing risk including various seminars, training programs and property inspection services. Further, the Trust utilizes the services of an independent consulting actuary. The actuary performs regular reviews to assist the Trust in establishing appropriate loss reserves and contribution rates. The Trust has also purchased reinsurance to protect against unusually severe individual claim losses.

Independent Financial Audit

CliftonLarsonAllen LLP, an independent certified public accounting firm, provides an objective, independent examination of the Trust's basic financial statements. Its audit includes those auditing procedures that it deems necessary to express an opinion on the fairness, in all material respects, of the financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP). CliftonLarsonAllen's unmodified opinion on the Trust's basic financial statements as of and for the fiscal years ended June 30, 2014 and 2013 is included in the financial section of this report.

Certificate of Achievement for Excellence in Financial Reporting

The Government Finance Officers Association (GFOA) of the United States and Canada awarded a Certificate of Achievement for Excellence in Financial Reporting to the Trust for its Comprehensive Annual Financial Report (CAFR) for the fiscal year ended June 30, 2013. The Certificate of Achievement is a prestigious national award, recognizing conformance with the highest standards for preparation of state and local government financial reports. FY2013 marks the 14th year in a row that the Trust has received this significant award.

In order to be awarded a Certificate of Achievement, a governmental unit must publish an easily readable and efficiently organized CAFR, whose contents conform to program standards. The CAFR must satisfy both GAAP and applicable legal requirements. A Certificate of Achievement is valid for a period of one year only. We believe our current report conforms to the Certificate of Achievement program requirements, and we are submitting it to the GFOA.

This report reflects the combined efforts of the Board, the Finance/Audit Committee, the Trust's management and staff. We would like to express our sincere appreciation to each of the Trust's members, the Board, the various local government officials that serve on the Trust committees and the employees of each governmental unit for their commitment to risk management and intergovernmental risk pooling. Their support and commitment is the reason for the continued successful operation of the Local Government Insurance Trust.

Respectfully submitted,

Tim Ailsworth

Report on the Financial Statements

We have audited the accompanying statements of net position, revenues, expenses and changes in net position, and cash flows of the Local Government Insurance Trust (the Trust) as of and for the years ended June 30, 2014 and 2013, and the related notes to the financial statements, which collectively comprise the Trust's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

The Trust's management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these basic financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Trust as of June 30, 2014 and 2013, and its changes in financial position and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis on pages 17 through 19 and the required supplementary information on pages 38 through 39 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise The Trust's basic financial statements. The supplementary combining schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The supplementary combining schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary combining schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The letter from the Chair, introductory section, and statistical tables listed in the table of contents have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Local Government Insurance Trust

Management's Discussion and Analysis

Years Ended June 30, 2014 and 2013

This section of the Comprehensive Annual Financial Report presents a discussion and analysis of the financial performance of the Local Government Insurance Trust (Trust) as of and for the years ended June 30, 2014 and 2013. Please read it in conjunction with the financial statements, which follow this section.

The following is a brief description of the Trust's three basic financial statements:

STATEMENT OF NET POSITION — This statement presents information reflecting the Trust's assets, liabilities and net position. The statement of net position categorizes assets and liabilities as current and noncurrent. For purposes of this financial statement, current assets and liabilities are those assets and liabilities with immediate liquidity or which are collectible or become due within twelve months of the statement date.

STATEMENT OF REVENUES, EXPENSES AND CHANGES IN NET POSITION — This statement reflects the operating revenues and expenses, as well as nonoperating revenues and expenses of the Trust. The Trust's major source of operating revenues is premium income with the major source of operating expenses being incurred claims and claims adjustment expenses. The change in net position is similar to net profit or loss for any other insurance company.

STATEMENT OF CASH FLOWS — The statement of cash flows is presented on the direct method of reporting which reflects cash flows from operating, capital and related financing, noncapital and related financing, and investing activities. Cash collections and payments are reflected in this statement to arrive at the net increase in cash and cash equivalents for the fiscal year. Due to timing differences associated with accrual accounting, the net cash provided by operating activities is different than the amount of operating loss reported on the statement of revenues, expenses and changes in net position; therefore, a reconciliation is also provided.

FINANCIAL SUMMARY

The following table summarizes the financial position of the Trust at June 30, 2014, 2013 and 2012, respectively.

Summary of Net Position

	2014	2013	2012
ASSETS			
Current assets	\$ 36,071,011	\$ 28,529,261	\$ 16,363,114
Noncurrent assets	26,942,515	32,382,472	46,097,000
Total Assets	63,013,526	60,911,733	62,460,114
LIABILITIES			
Current liabilities	6,401,482	7,683,724	6,228,340
Noncurrent liabilities	8,238,439	7,595,106	7,698,723
Total Liabilities	14,639,921	15,278,830	13,927,063
NET POSITION			
Net Investment in capital assets	3,641,460	3,796,074	3,958,929
Unrestricted	44,732,145	41,836,829	44,574,122
TOTAL NET POSITION	\$ 48,373,605	\$ 45,632,903	\$ 48,533,051

Total Assets

Total assets increased by approximately \$2,102,000 between June 30, 2013 and 2014 primarily due to investment income earned during the period.

Total assets decreased by approximately \$1,548,000 between June 30, 2012 and 2013 primarily due to a decrease in cash of approximately \$2,512,000 offset by an increase to other receivables related to the Health Cooperative of \$805,000.

Total Liabilities

The most significant components of the Trust's liabilities are related to unpaid claims and claim adjustment expenses. Unpaid claims and claim adjustment expense is a liability calculated by the Trust's actuary for all pools. Unpaid claims and claims adjustment expense at 2014 year end decreased by approximately \$261,000 from year end 2013.

The Rate stabilization liability, as described in Note 7 of the Notes to the Financial Statements, decreased by approximately \$366,000 due to rate credits granted to the membership as well as reducing the total amount of member equity funded into the member rate stabilization accounts.

Unpaid claims and claim adjustment expenses at June 30, 2013 increased by approximately \$1,660,000 from year end 2012.

The following table summarizes the change in net assets for fiscal years ended June 30, 2014, 2013 and 2012, respectively.

Summary of Revenues, Expenses and Changes in Net Position

	2014	2013	2012
Operating revenues	\$ 10,673,133	\$ 8,772,712	\$ 8,365,841
Operating expenses	11,853,885	12,647,504	9,517,725
Operating loss	(1,180,752)	(3,874,792)	(1,151,884)
Nonoperating income	3,921,454	974,644	2,097,090
Change in net assets	2,740,702	(2,900,148)	945,206
Net position, beginning of year	45,632,903	48,533,051	47,587,845
Net position end of year	\$ 48,373,605	\$ 45,632,903	\$ 48,533,051

RESULTS OF OPERATIONS

Revenues

Total operating revenues increased by approximately 22% or approximately \$1,900,000 for fiscal year 2014 compared to fiscal year 2013. The primary reason relates to increased premiums collected across all pools caused by a combination of a small rate increase, growth in the underlying insured values, inflation and new member revenues.

Total operating revenues increased by approximately 5% or approximately \$407,000 for fiscal year 2013 compared to fiscal year 2012. The primary reason relates to a reduction of premium credits by approximately \$483,000 across all Trust pools.

Expenses

Operating expenses are comprised of incurred claims and claim adjustment expenses (net of recoveries) and the Trust's general and administrative (G&A) expenses.

The total operating expenses decreased by approximately \$794,000 in fiscal year 2014 compared to fiscal year 2013 primarily caused by a decrease in incurred claims and claim adjustment expenses of approximately \$982,000. The \$1,000,000 reserve established in fiscal year 2013 for one policy liability claim of the PLP was relieved in fiscal year 2014 as the case was settled and the claim was paid.

The total operating expenses increased by approximately \$3,130,000 in fiscal year 2013 compared to fiscal year 2012 primarily caused by an increase in incurred claims and claim adjustment expenses of approximately \$2,831,000. A claim reserve of \$1,000,000 was established for one police liability claim of the PLP during fiscal year 2013 and other reserves of the PLP were increased by the actuary by approximately \$642,000. In addition, claim payments were higher by approximately \$800,000 in fiscal year 2013 compared to fiscal year 2012. There was also an increase in the Trust's G&A expenses of approximately \$306,000.

Nonoperating revenues

Nonoperating revenues consist of investment income and interest expense. Investment income was approximately \$2,947,000 higher in fiscal year 2014 compared to 2013. This was caused primarily by the less than 2% return in fiscal year 2013 compared to investment returns of 7.76% during fiscal year 2014. The equity sector of the investment portfolio was the main driver of the investment performance with growth of approximately 15.57%. For additional details concerning the investment portfolio and investment management, please see Note 4 of the Notes to Financial Statements.

Investment income was approximately \$1,280,000 lower in fiscal year 2013 compared to fiscal year 2012. This reduction was mainly due to poor returns from the Trust fixed income investments compared to the prior year (see chart below) and negative returns on the alternative investment strategies implemented in fiscal year 2013. The annualized investment returns for fiscal years 2014, 2013 and 2012 are summarized by investment type as follows. This does not include any return or loss on the Trust's deposit with the reinsurance pool.

	2014	2013	2012
Fixed income portfolio	4.06%	.14%	5.63%
Equity portfolio	15.57%	10.22%	.12%
Alternative strategies	4.48%	-3.1%	-
Total LGIT investments	7.76%	1.47%	4.21%

As of June 30, 2014, the Trust's portfolio allocations were 48% fixed income, 37% equity and 15% alternative strategies. The targeted allocations for the portfolio are 39% fixed income, 46% equity and 15% alternative strategies. The Trust is currently executing a 12-month dollar-cost-averaging plan through December, 2014 to arrive at the intended allocation targets.

As of June 30, 2013, the Trust's portfolio allocations were 65% fixed income, 25% equity and 10% alternative strategies. The targeted allocations for the portfolio are 53% fixed income, 32% equity and 15% alternative strategies.

Conclusion

This financial report is designed to provide Trust members with a general overview of the Trust's finances, and to demonstrate the Trust's accountability for the money it receives. Questions concerning this report or requests for additional financial information should be directed to J. Earle Beyer, Director of Finance/Information Technology, 7225 Parkway Drive, Hanover, Maryland 21076.

Local Government Insurance Trust Notes to Financial Statements

Years Ended June 30, 2014 and 2013

■ **NOTE 1 — ORGANIZATION AND PURPOSE**

The Local Government Insurance Trust (Trust) is a joint association of Maryland local governments established in 1987 to provide an alternative to the diminishing availability of insurance coverages to the public sector and the increasing premium costs in the municipal insurance market. The Trust strives to provide coverage and risk management services at stable and competitive rates. The Trust is owned and directed by the local governments that subscribe to its coverages and operates under the terms of the eighth amended and restated Trust Agreement effective July 1, 2004.

The Trust's Board of Trustees (Board) is empowered to establish pools to provide coverage for any class of casualty, health, life or property related risks. As of June 30, 2014, the currently active pools are the following: the Primary Liability Pool (170 participants), the Property Pool (149 participants), and the Excess Liability Pool (174 participants). Membership in the pools is limited to local governments that are members of the Maryland Municipal League (MML) or Maryland Association of Counties (MACo). A participating local government may also sponsor a public entity within its district for participation in a pool. Each member agrees to comply with a plan of risk management as determined by the Trust. In the event a pool reports an operating deficit, the Trust may either assess the pool participants to cover the deficit or increase premiums.

The Primary Liability Pool (PLP) provides coverage for commercial general liability, police legal liability, public official's legal liability, and business automobile coverage. The maximum limit of liability to the PLP may not exceed \$1,000,000 for any one claim or occurrence per participant. The Property Pool provides coverage for property based on the determined insured values of the property. The Excess Liability Pool (ELP) has a maximum limit of \$5,000,000 for each occurrence and in the aggregate for occurrence-based coverage; and \$5,000,000 for each occurrence, and in the aggregate, for claims-made coverage. Participants in the ELP must either self-insure retention of \$1,000,000 or purchase primary liability coverage from the Trust. The Trust will not insure coverages over other commercial insurance companies. The financial statements include these pools as well as a general Operating Account and an Escrow Deposit Account.

■ **NOTE 2 — SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Basis of Presentation

The financial statements are presented using the economic resources measurement focus and the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America applicable to public entity risk pools and enterprise funds as prescribed by the Governmental Accounting Standards Board (GASB). In preparing its financial statements, the Trust has applied all applicable GASB pronouncements. The Trust distinguishes operating revenues and expenses from nonoperating items. The principal operating revenues of the Trust are premiums charged to members for insurance coverage including special assessments, if any. Premiums are reflected net of reinsurance. Operating expenses include claims and claim adjustment expenses and general and administrative expenses. All other revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses. The Trust is not subject to statutory reporting requirements for insurance companies. Certain accounts have been reclassified in the June 30, 2013 financial statements to be in conformity with the presentation in the June 30, 2014 financial statements; however, this did not affect net assets or the changes therein.

Use of Estimates in Preparing Financial Statements

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual amounts could differ from these estimates.

Cash and Cash Equivalents

The Trust considers demand deposits, money market funds and other investments with an original maturity of three months or less at the date of acquisition to be cash and cash equivalents.

Investments

Debt securities with an original maturity of over one year at date of acquisition and equity securities are stated at fair value. Market value is used as fair value for those securities for which market quotations are readily available. Investments that have a remaining maturity at time of purchase of one year or less are reported at amortized cost.

Recognition of Premium Revenues

Annual property and liability premiums are written with an effective date of July 1 and are generally recognized as revenue on a pro rata basis over the policy term. The portion of premiums that will be earned in the future are deferred and reported as unearned premiums. Special premium assessments and credits, if any, are recorded in the period in which they are approved by the Board. The Trust had no unearned premiums as of June 30, 2014 and 2013.

Reinsurance

The Trust limits the maximum net loss that can arise from large risks by reinsuring (or ceding) certain levels of risk with reinsurers under various reinsurance treaties. Ceded reinsurance is treated as the risk and liability of the reinsuring companies. Premiums and recoveries related to ceded business are accounted for on bases consistent with those used in accounting for the original policies issued and the terms of the reinsurance contracts. Ceded premiums are recorded as reductions of premiums earned and related claim recoveries are recorded as reductions of incurred claims and claim adjustment expenses.

Deferred Policy Acquisition Costs

Salaries and other costs of acquiring insurance that vary with and are primarily related to the production of new and renewal business are deferred and amortized over the terms of the policies or reinsurance treaties to which they relate. Deferred acquisition costs are reviewed periodically to determine if they are recoverable from future income, including investment income. If the deferred costs are not recoverable, they are charged to expense in the period of the review. The Trust had no deferred policy acquisition costs as of June 30, 2014 and 2013.

Capital Assets

All capital assets are carried at cost. All acquisitions of capital assets in excess of \$1,000 with a useful life in excess of one year and all expenditures for repairs, maintenance, renewals and betterments that materially prolong the useful lives of assets are capitalized. Depreciation is computed using the straight-line method over the estimated useful lives of the related assets. Electronic data processing equipment and software (EDP) are depreciated over three years. Furniture and equipment are depreciated over five years and the building is depreciated over forty years.

Insurance Liabilities

The Trust establishes claims liabilities based on estimates of the ultimate cost of claims (including future claim adjustment expenses) that have been reported but not settled, and of claims that have been incurred but not reported. The length of time for which such costs must be estimated varies depending on the coverage involved. Estimated amounts of salvage, subrogation and reinsurance recoverable on unpaid claims are deducted from the liability for unpaid claims and claim adjustment expenses. The Trust does not discount the liabilities for unpaid claims or claim adjustment expenses. Because actual claim costs depend on such complex factors as inflation, changes in doctrines of legal liability, and damage awards, the process used in computing claims liabilities does not necessarily result in an exact amount, particularly for coverages such as general liability. Claims liabilities are recomputed

periodically using a variety of actuarial and statistical techniques to produce current estimates that reflect recent settlements, claim frequency, and other economic and social factors. A provision for inflation in the calculation of estimated future claims costs is implicit in the calculation because reliance is placed both on actual historical data that reflect past inflation and on other factors that are considered to be appropriate modifiers of past experience. Adjustments to claims liabilities are charged or credited to expense in the periods in which they are made.

Government Accounting Board (GASB) Pronouncement No. 63, Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position.

In June 2011, the GASB issued Statement No. 63. This Statement provides financial reporting guidance for deferred outflows of resources and deferred inflows of resources and defined the residual of assets and deferred outflows less liabilities and deferred inflows as net position. The Trust has implemented the effects of this Statement for the reporting period ending June 30, 2013. The effect of this Statement on the Trust was a change in the format of the entity wide statements to include the concept of net position.

GASB Pending Pronouncement No. 65, Items Previously Reported as Assets and Liabilities

GASB routinely issues standards that will become effective in future years. GASB statement No. 65 is a standard that has been issued that management has determined may have an impact on future financial statements of the Trust. Management is currently evaluating the specific impact of this Standard. This Statement establishes accounting and financial reporting standards that reclassify, as deferred outflows of resources or deferred inflows of resources, certain items that were previously reported as assets and liabilities and recognizes, as outflows of resources or inflows of resources, certain items that were previously reported as assets and liabilities.

GASB Pending Pronouncement No. 68, Accounting and Financial Reporting for Pensions

In June 2012, the GASB issued Statement No. 68. This statement replaces the requirements of Statements No. 27 and 50 related to pension plans that are administered through trusts or equivalent arrangements. The requirements of this statement are effective for fiscal years beginning after June 15, 2014. The Trust is currently evaluating the impact of this Statement.

GASB Pending Pronouncement No. 69, Government Combinations and Disposals of Government Operations

In January 2013, GASB issued Statement No. 69. This Statement establishes accounting and financial reporting standards related to government combinations and disposals of government operations. The Trust has determined that this statement has no effect on its financial statements.

GASB Pending Pronouncement No. 70, Accounting and Financial Reporting for Nonexchange Financial Guarantees

In April 2013, the GASB issued Statement No. 70. This statement specifies the information required to be disclosed by governments that extend non-exchange financial guarantees. The Trust has determined that this statement has no effect on its financial statements.

Income Taxes

The income of the Trust is exempt from federal taxation under §115 of the Internal Revenue Code.

■ NOTE 3 — CASH AND CASH EQUIVALENTS

Custodial Credit Risk

Custodial credit risk is the risk that in the event of a bank failure, the Trust's deposits may not be returned. The Trust does not have a formal custodial credit risk policy for deposits. Cash and temporary investments are maintained in one commercial bank and two broker-dealers located in Baltimore, Maryland. Balances on deposit are insured by the Federal Deposit Insurance Corporation (FDIC) up to specified limits. As of June 30, 2014 and 2013, cash balances of \$249,759 and \$134,850 exceeded FDIC coverage amounts. Deposits in excess of the FDIC specified limits are collateralized with U.S. Government securities at 102% of the cash value. Cash and temporary investments held by broker-dealers are insured by the Securities Investor Protection Corporation (SIPC) up to specified limits. Balances in excess of SIPC limits are uninsured. Total cash and temporary investments held by the bank and broker-dealers were \$2,542,912 and \$4,868,358 of June 30, 2014 and 2013, respectively.

Cash and cash equivalents consisted of the following as of June 30, 2014 and 2013:

	2014	Percentage of	2013	Percentage of
Cash	\$ 218,647	9.7%	\$ 52,349	1.2%
Maryland Local Government	129,937	5.7%	129,860	2.9%
Money Market Mutual Funds	1,913,216	84.6%	4,353,648	95.9%
Total Cash and Cash	\$ 2,261,800	100.0%	\$ 4,535,857	100.0%

LGIT participates in the MLGIP which is an external investment pool that is not subject to regulation by the Securities and Exchange Commission (SEC). However, the pool is governed by Article 95 Section 22G of the Annotated Code of Maryland and under control of the State Treasurer, subject to oversight by the MLGIP Advisory Committee. All securities in the MLGIP are valued daily on an amortized cost basis, which approximates market value.

Credit Risk

The MLGIP and all money market mutual funds carry AAA ratings with the exception of the fund used by the external investment managers, which are not rated but possesses all the characteristics of an AAA rated fund.

Interest Rate Risk

Interest rate risk is the risk changes in interest rates of debt investments that will adversely affect the fair value of an investment. Information about the exposure of the Trust's cash equivalents to this risk, using the segmented time distribution model is as follows:

	MLGIP	Money Market Mutual Funds
June 30, 2014		
Less Than 1 Year	\$ 129,937	\$ 1,913,260
Total	\$ 129,937	\$ 1,913,260
June 30, 2013		
Less Than 1 Year	\$ 129,860	\$ 4,353,648
Total	\$ 129,860	\$ 4,353,648

■ NOTE 4 — INVESTMENTS

The Trust's investments are held in an externally managed portfolio. There are no legal restrictions on the Trust's investments.

The Trust's Long-term Investment Account is managed under the guidelines of and investment policy approved by the Board of Trustees on December 13, 2012. In accordance with the policy, permitted investments include, but are not limited to, U.S. Government and agency securities, corporate securities, international/emerging market securities, high yield bonds, equity securities and other alternative securities to include Real Estate Investment Trusts and other liquid alternatives. Investments are registered and held by the Trust's custodian bank in the name of the Trust. The allocation policy for the short-term portfolio containing the Trust operating cash stipulates 100% cash equivalents.

It is the policy of the Board of Trustees to invest that portion of the portfolio allocated to the Long-term Investment Account pursuant to the following allocation parameters for fixed income, equities and alternative strategies:

	Minimum	Maximum
Cash Equivalents	0%	25%
Fixed Income	35%	95%
Equities	5%	50%
Alternative Strategies	0%	25%

The carrying values of the Trust's investments as of June 30, 2014 and 2013 are summarized in the table below. Investments in any one issuer that represent five percent or more of total investments have been disclosed separately.

	2014	Percentage of portfolio	2013	Percentage of portfolio
Debt Securities:				
U.S. Government Securities	\$ 5,389,884	10.8%	\$ 9,424,840	21.1%
U.S. Government Agencies				
Federal Farm Credit Bank	-	-	-	-
Federal Home Loan Bank	74,385	-	-	-
Government National	403,720	.8%	944,472	2.1%
Federal National	1,268,318	2.5%	2,444,354	5.5%
Federal Home Loan	758,731	1.5%	564,703	1.3%
Small Business Administration	279,279	.6%	-	-
Preferred Securities	22,711	-	13,763	-
Mutual & Exchange Traded Funds	10,598,121	21.3%	9,547,029	21.3%
Corporate Bonds	9,374,276	18.8%	10,608,579	20.6%
Municipal Bonds	630,005	1.3%	621,925	1.4%
Equity Securities	17,600,078	35.2%	8,200,790	18.3%
Other	3,592,135	7.2%	2,389,529	5.3%
Total Investments	\$ 49,991,653	100.0%	\$ 44,759,984	100.0%

The "Other" investment category reported above is a mutual fund that has a flexible investment mandate and does not restrict itself to debt securities thus it is classified as "Other."

Investments are reported at their fair values with changes in values included in investment income. The net unrealized change in the fair value of the investments included in investment income was a net appreciation of \$2,430,154 and a net depreciation of \$4,697,147 for the years ended June 30, 2014 and 2013, respectively.

Concentration of Credit Risk

Concentration of credit risk is the risk of loss attributed to the magnitude of an investment in a single issuer. The Trust places no limit on the amount invested in any one issuer. The Trust does not own one investment of a single source that exceeds 5% of the total value of the investment portfolio.

Custodial Credit Risk

Custodial credit risk is the risk that, in the event of the failure of the counterparty, the Trust will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The Trust does not have a formal custodial credit risk policy for investments. Investments are held in the Trust's name by various Trust banks located in the United States of America. Securities are insured by the Securities Investor Protection Corporation (SIPC) up to specified limits. Balances in excess of SIPC limits are uninsured. Total securities held by Trust banks and in mutual funds were \$49,991,653 and \$44,759,984, as of June 30, 2014 and 2013, respectively.

Credit Risk

Generally, credit risk is the risk that an issuer of a debt type investment will not fulfill its obligation to the holder of the investment. This is measured by assignment of a rating by a nationally recognized rating organization. U.S. Government securities or obligations explicitly guaranteed by the U.S. Government are not considered to have credit risk exposure. Issuer obligations of U.S. Government Agencies and loan-backed securities of the Government National Mortgage Association (GNMA) and Department of Veterans Affairs (VA) have the explicit backing of the U.S. Government. Loan-backed securities of Federal National Mortgage Association (FNMA), Federal Home Loan Mortgage Corporation (FHLMC), and Federal Agricultural Mortgage Corporation (FAMC) have the implicit backing of the U.S. Government.

The Trust's investment policy for fiscal years 2014 and 2013 stipulates that the overall average quality of the portfolio should be at least "A" or better, as measured by Standard & Poor's or Moody's Investor Service. Presented below is the minimum rating granted for each type of investment.

	U.S. Government Agencies		Corporate Bonds		Municipal Bonds	
June 30, 2014						
AAA	\$	2,784,433	\$	1,157,965	\$	131,053
AA		-		1,167,873		274,110
A		-		5,455,782		224,843
BBB		-		1,592,656		-
Total	\$	2,784,433	\$	9,374,276	\$	630,005
June 30, 2013						
AAA	\$	3,953,529	\$	1,582,237	\$	-
AA		-		1,141,567		395,610
A		-		6,253,799		226,315
BBB		-		1,630,976		-
Total	\$	3,953,529	\$	10,608,579	\$	621,925

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates of debt investments will adversely affect the fair value. Balances invested in the short-term portfolio are intended to fund the operating activities of the Trust for a one year period and cash is invested accordingly to meet cash flow requirements. The Trust's investment policy for the long-term portfolio stipulates that the duration of

Continued from page 30.

the fixed income portion of the portfolio should remain in the range of plus or minus two years of the Barclay's Intermediate Government Credit Index (3.9 years as of June 30, 2014 and 4.0 years as of 2013). The maximum maturity of any fixed income investment is thirty years. The Trust uses the due date for purposes of determining segmented time distributions. Information about the exposure of the Trust's debt type investments to this risk, using the segmented time distribution model is as follows:

	U.S. Government Securities	U.S. Government Agencies	Corporate Bonds	Municipal Bonds
June 30, 2014				
Less Than 1 Year	\$ -	\$ -	\$ 263,392	\$ 131,053
1 to 5 Years	2,359,417	569,186	6,140,317	389,413
6 to 10 Years	3,030,467	406,217	2,682,229	109,539
Over 10 Years	-	1,809,030	288,338	-
Total	\$ 5,389,884	\$ 2,784,433	\$ 9,374,276	\$ 630,005
June 30, 2013				
Less Than 1 Year	\$ 1,172,063	\$ -	\$ 531,539	\$ 132,245
1 to 5 Years	3,061,100	489,564	6,132,269	246,838
6 to 10 Years	5,077,620	38,360	3,673,647	242,842
Over 10 Years	114,057	3,425,605	271,124	-
Total	\$ 9,424,840	\$ 3,953,529	\$ 10,608,579	\$ 621,925

The Trust invests in loan-backed securities which totaled \$2,398,510 and \$4,872,635 as of June 30, 2014 and 2013, respectively. U.S. Government Agency Securities reported above include \$1,729,547 and \$3,463,965 of loan-backed securities as of June 30, 2014 and 2013, respectively. Corporate securities reported above included \$668,963 and \$1,408,670 of loan-backed securities as of June 30, 2014 and 2013, respectively. Loan-backed securities are based on cash flows from the underlying assets, therefore making them sensitive to prepayments that may result from a decline in interest rates. The Trust's investment policy limits the amount invested in loan-backed securities to no more than 50% of the fixed income portfolio.

Foreign Currency Risk:

Foreign currency risk is the risk that changes in the exchange rate of investments will adversely affect the fair value of an investment. The Trust's exposure to foreign currency risk derives from its positions in American Depository Receipts (ADR) of foreign common stocks. ADRs are paper securities issued by U.S. banks that evidence the ownership of actual shares of foreign stocks held in the bank's foreign branches or with a foreign correspondent on behalf of the ADR holder. The Trust's investment balances in ADRs by country are shown in the following table as of June 30, 2014 and 2013. The Trust has no formal policy concerning foreign currency risk.

	2014	2013
United Kingdom	\$ 390,991	\$ 185,316

■ NOTE 6—UNPAID CLAIMS LIABILITIES AND RELATED EXPENSES

The Trust establishes a liability for both reported and unreported insured events, which includes estimates of both future payments of claims and claim adjustment expenses, both allocated and unallocated. The following represents changes in those aggregate liabilities for the Trust during the past two fiscal years:

	2014	2013
Balance at beginning of year	<u>\$ 12,856,324</u>	<u>\$ 11,196,710</u>
Incurred related to:		
Current year	7,307,339	8,528,249
Prior years	(419,108)	(657,786)
Total incurred	<u>6,888,231</u>	<u>7,870,462</u>
Paid related to:		
Current year	2,258,232	2,555,929
Prior years	4,891,024	3,654,919
Total paid	<u>7,149,256</u>	<u>6,210,848</u>
Balance at end of year	<u>\$ 12,595,299</u>	<u>\$ 12,856,324</u>

Incurred claims and claim adjustment expenses related to prior years decreased by approximately \$419,108 and \$657,786 in fiscal years 2014 and 2013, respectively, as a result of changes in estimates of claims and claim adjustment expenses. Changes in estimates are generally the result of ongoing analysis of loss development trends. Original estimates are adjusted as additional information becomes known regarding individual claims.

The liabilities for claims and claim adjustment expenses are net of reinsurance recoverable of \$0 and \$2,006,799 as of June 30, 2014, and 2013, respectively.

■ NOTE 7—RATE STABILIZATION FUND

The Board approved a return of capital from the PLP of \$1,000,000 and \$1,500,000 for fiscal years 2014 and 2013, respectively.

The return of capital was added to member rate stabilization account balances funded during prior fiscal years. The return of capital, which represents 50% of member account balances, is in the form of premium credits used by pool members of good standing for fiscal years 2014 and 2013, respectively. Rate stabilization credits of \$1,331,325 and \$1,728,541 were applied and shown as an offset to annual premiums on member invoices in fiscal years 2014 and 2013, respectively. The credit can be used by members each year up to a specified percentage of their annual premium, as approved by the Board. Balances remaining in the rate stabilization fund were as follows as of June 30, 2014 and 2013:

	2014	2013
Current	\$ 675,701	\$ 858,859
Noncurrent	675,702	858,859
Total	<u>\$ 1,351,703</u>	<u>\$ 1,717,718</u>

■ **NOTE 8 — REINSURANCE**

The Trust uses reinsurance agreements to reduce its exposure to certain large losses. Reinsurance permits recovery of a portion of losses from reinsurers, although it does not discharge the primary liability of the Trust as direct insurer of the risks reinsured. The Trust reduces liabilities related to reinsured risks unless it is probable that those risks will not be covered by reinsurers. No allowances were considered necessary as of June 30, 2014 and 2013. The Trust does not generally require collateral to secure reinsurance recoveries, but periodically evaluates the financial condition of its reinsurers and monitors concentrations of credit risk arising from similar geographic regions, activities or economic characteristics of the reinsurers to minimize its exposures to significant losses from reinsurer insolvency.

The Trust is a member of NLC Mutual Insurance Company (NLC), a captive reinsurance pool whose members consist of certain state self-insurance pools. Each member is required to maintain deposits with NLC based on certain prescribed levels. These balances are reflected in the statements of net assets as “deposit with reinsurance pool” and totaled \$6,146,907 and \$5,681,126 as of June 30, 2014 and 2013, respectively.

The Trust did not purchase reinsurance for the standard coverages offered in the PLP for the years ended June 30, 2013 and 2012 and retained the entire \$1,000,000 per occurrence coverage limit. Coverage was provided by NLC for the Trust’s ELP exposure, which insures all losses over the PLP’s coverage of \$1,000,000 with a maximum limit of liability of \$5,000,000. In addition, the Trust purchased reinsurance for the Property Pool from private reinsurance companies that covered claims in excess of \$100,000. Amounts recoverable from reinsurers are estimated in a manner consistent with the reinsurance policy. Net reinsurance recoveries and prepaid expenses amounted to \$390,093 and \$2,954,783 as of June 30, 2014 and 2013, respectively. Over the last three years, incurred and paid claims have not exceeded insurance coverage. There were no ceded reinsurance premiums payable as of June 30, 2014 and 2013, respectively. There were no ceded unearned premiums as of both June 30, 2014 and 2013.

The amount of recoveries related to the reinsurance contracts that were deducted from losses incurred for the years ended June 30, 2014 and 2013 were \$(261,314) and \$3,774,646, respectively.

■ **NOTE 9 — HEALTH PLAN COOPERATIVE**

In fiscal year 2011, the Trust established the Maryland Local Government Health Cooperative (Cooperative), a self insurance alliance between member governments. The Cooperative was established as a self-insured health plan for the purpose of providing group health benefits to its members’ employees and eligible dependents. The plan was designed by and is administered by Benecon Group, Inc. (Benecon) through June 30, 2014. Automatic one year renewals are provided under the agreement with Benecon unless written notice of termination is provided by February 1 of the year in which the agreement will terminate. Benecon is responsible for designing the benefit structure for each member, performing the underwriting function, selecting and negotiating rates with a stop-loss carrier, determining member funding levels, selecting and negotiating an agreement with a claims administrator, preparing quotations for prospective members, and performing other administrative functions. The Trust is responsible for governance, serving as the treasurer and depository for all cash flowing through the Cooperative, and establishing qualifications for membership. Each Cooperative member pays a management fee based on the number of enrolled employees for administrative services performed. The Trust is entitled to 25 percent of the management fee and Benecon is entitled to the remaining 75 percent.

The Trust paid premiums to the Cooperative totaling \$373,753 and \$342,308 for the years ended June 30, 2014 and 2013, respectively. These premiums represented the Trust’s maximum exposure for health care claims incurred during the year. Claims rebates received by the Trust from the Cooperative based on prior year actual medical claim activity totaled \$0 and \$7,275 for the years ended June 30, 2014 and 2013, respectively. Management fees earned by the Trust totaled \$51,989 and \$49,736 for the years ended June 30, 2014 and 2013, respectively. The Trust was owed \$91,000 for initial funding provided to the Cooperative as of June 30, 2014 and 2013, respectively. Amounts remitted by the Trust from the Cooperative toward medical claims not yet reimbursed by Cooperative members totaled \$176,286 and \$804,715 as of June 30, 2014 and 2013. Amounts collected by the

Trust from Cooperative members, but not yet remitted toward member reimbursements totaled \$370,881 and \$406,409 as of June 30, 2014 and 2013, respectively.

■ **NOTE 10 — RISK MANAGEMENT**

The Trust is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disaster. The Trust participates in the property and primary liability pools offered by the Trust and carries commercial insurance for all other risks of loss, including worker's compensation and errors and omissions.

Local Government Insurance Trust

Explanation of Required Supplementary Information

Unaudited – See Accompanying Independent Auditors' Report

This section of the Financial Statements provides the reader with a broader understanding of the Trust's operations and its financial trends and conditions than is provided in the Basic Financial Statements. A reconciliation of claims liability by pool for the past two years, as well as claims development information for the last ten years are provided.

Reconciliation of Claims Liabilities and Related Expenses by Pool

The schedule on page 38 represents the changes in claims liabilities for the past two years for each of the Trust's pools.

Claims Development Information

The table on page 39 illustrates how the Trust's earned revenue (net of reinsurance) and investment income compare to related costs of claims (net of losses assumed by reinsurers) and other expenses assumed by the Trust as of the end of each of the past 10 fiscal years. The columns of the table show data for successive policy years. The rows of the table are defined as follows:

Premiums and investment revenue

Amount of reported gross premium and investment revenue, amount of premium revenue ceded and investment revenue.

Unallocated expenses

Amount of reported unallocated claim adjustment expenses and other costs that cannot be associated directly with specific claims.

Estimated claims and allocated expenses, end of policy year

Amount of gross incurred claims and allocated claim adjustment expense, loss assumed by reinsurers, and net amount of incurred claims and allocated claim adjustment expense (both paid and accrued) as originally reported at the end of the year in which the events that triggered coverage under the policy.

Net paid cumulative) as of

Cumulative amount paid (net of recoveries) as of each succeeding year.

Reestimated ceded claims and allocated expenses

Reestimated amount for losses assumed by reinsurers as of the end of the current year.

Reestimated net incurred claims and allocated expenses

Reestimated amount for net incurred claims and claim adjusted expenses as of each succeeding year.

Increase (decrease) in estimated net incurred claims and allocated expenses from end of policy year

The change in net incurred claims and claim adjustment expenses from the original estimate based on the difference between the latest reestimated amount and the original net incurred claims and claim adjustment amounts reported.

Local Government Insurance Trust

Notes to Supplementary Combining Schedules

Years Ended June 30, 2014 and 2013

■ NOTE 1 — DESCRIPTION OF POOL COVERAGES

The pools provide insurance coverage in the following areas up to the indicated limits:

Primary Liability Pool Coverage

POOL COVERAGE	
Commercial general liability	
Bodily injury; property damage and personal injury	\$ 2,000,000 annual aggregate
Medical payments	\$ 5,000 each person
Fire legal liability	\$ 1,000,000 per occurrence
Products and completed operations per participant	\$ 1,000,000 annual aggregate
Police legal liability	\$ 1,000,000 each wrongful act
Public officials legal liability	\$ 1,000,000 each error or omission act
Business automobile coverage	
Liability insurance	\$ 1,000,000 per occurrence
Garage keepers	
Comprehensive	\$ 1,000,000 per occurrence
Collision	\$ 1,000,000 per occurrence

The public officials legal liability and police legal liability coverages are on a claims made basis with limited coverage for unknown acts prior to July 1, 1987 and provide for coverage under an extended discovery period in the event of participant cancellation.

The maximum limit of liability to the Primary Liability Pool (PLP) may not exceed \$1,000,000 for any one claim or occurrence per participant, regardless of any applicable primary liability coverage.

Property Pool Coverage

The pool shall not be liable for more than the insured value of the property covered with limits not to exceed the blanket values declared per entity in any one occurrence, except:

- A. \$5,000,000 per entity per occurrence and annual aggregate with respect to the peril of flood
- B. \$5,000,000 per entity per occurrence and annual aggregate with respect to the peril of earthquake

The Trust also offers Boiler and Machinery coverage with limits not to exceed the blanket building and contents limit. The Trust reinsures 100% of the related risk.

Excess Liability Pool Coverage

The maximum limit of liability to the Excess Liability Pool (ELP) is \$5,000,000 for each occurrence and in the aggregate for occurrence-based coverage; and \$5,000,000 for each occurrence, and in the aggregate, for claims-made coverage. Participants in the ELP must either self-insure retention of \$1,000,000 or purchase primary liability coverages from the Trust. The Trust will not insure coverages over other commercial insurance companies.

Pool Membership and Demographic Information

Membership in each pool consists of counties, municipalities, and others, which include sponsored entities as well as the founders of the Trust, the Maryland Municipal League, and the Maryland Association of Counties. The following represents the participants for fiscal year 2014 and 2013.

	POOL TOTALS		COUNTIES		MUNICPALITIES		OTHER	
	2014	2013	2014	2013	2014	2013	2014	2013
Primary	170	169	14	13	137	134	19	22
Property	149	147	16	15	122	118	11	14
Excess	174	132	15	14	138	98	21	20

■ NOTE 2 — DESCRIPTION OF ACCOUNTS

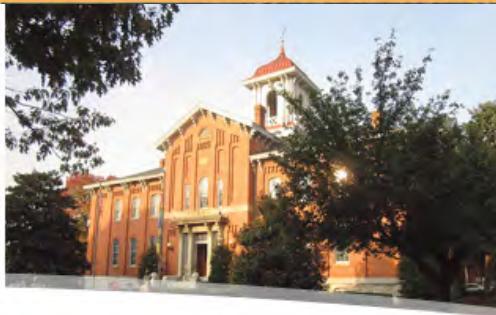

Operating Account

The pools have been established to account for all premiums, claims and administrative costs attributable to the particular coverages. Administrative costs not specifically identified with a particular pool, investments, investment income and other undesignated income are accounted for in the operating account. Under the Trust Agreement, amounts necessary to fund operating expenses are transferred from the various pools to the operating account.

To accomplish this, each pool was allocated a portion of the revenues and expenses accumulated within the operating account for fiscal years 2014 and 2013. The expense amounts allocated to each pool were determined based on a time study among Trust personnel and related judgments considered by management to be relevant under the circumstances. Additionally, the revenue amounts allocated to each pool were in proportion to the pools share of cash and investments.

■ NOTE 3 — RECLASSIFICATIONS

Certain fiscal year 2013 amounts have been reclassified to conform to fiscal year 2014 presentations. The reclassification had no effect on net position or changes therein.

Statistical Section

The Statistical Section provides detailed information for the Local Government Insurance Trust as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the Trust's overall financial health. The tables in this section are unaudited because they often present data from outside accounting records.
